

IFC300 INFRARED COOKER

OVERVIEW

Warm, stir-fry, barbecue, boil, steam boat, stew, or even simple cooking – the Aztech IFC300 Infrared Cooker is your kitchen companion to speedy and highly versatile cooking made possible through its delightful features that you can easily utilize in preparing your favorite meals.

For its design, the Aztech IFC300 uses a compression-resistant black crystal ceramic plate which not only provides an easy to clean and maintain surface, but also enables an energy efficient method in maximizing the transfer or reflection of heat among pans and/or other cooking utensils over short periods of time. This feature enables it to effectively heat almost any kind of heat resistant cooking utensil (including those of glass or ceramic material) that you have at home.

When it comes to utilizing the Aztech IFC300's functions, the Aztech IFC300 is equipped with touch sensor buttons to provide an easier means of accessing the appliance's functionalities such as (1) Child Safety Lock, (2) Timer button, (3) Temperature Adjustment buttons (+ and -), (4) Function button, and (5) an ON/OFF button. In addition, this appliance also utilizes status LEDs including a four-digit LED display which indicates the current functions and or settings used and/or other warnings that will help you identify the infrared cooker's current settings at a glance.

As for its other features, the Aztech IFC300 has six (6) cooking functions to choose from : (1) Warm, (2) Stir Fry, (3) BBQ, (4) Boiling, (5) Steam Boat, and (6) Stew. In addition, the Aztech IFC300 also includes a variety of safety protection features such as overheat protection, max temperature indicator, over voltage protection, and other similar properties which will help ensure product usage safety.
