DSL605EW

4-Port ADSL2/2+ Wireless-G Modem Router

DSL605EW, with its high-power wireless G+ speed and 3dBi fixed antenna, ensures strong signal strength and fast web surfing. With the built-in ADSL modem, the gateway is an all-in-one integrated communications solution for home networking, SOHO and SME environments. Users can expect to download, upload with Triple Play feature that supports an integration of data, IPTV and voice service.

DSL605EW is the perfect all-in-one broadband and networking solution for those who share high speed Internet access with multi-users at home or for a small office that needs Internet access for conducting essential business activities.

It is available in a stylish and compact life-style design that can be used when placed in a horizontal, vertical or wall-mount position.

DSL Broadband Connection

Digital Subscriber Line (DSL) establishes quickly to the Internet for you unlike a dial-up service. With DSL, you can surf the Internet, chat online and check email at a faster speed. You can also share high quality digital pictures, video and music files with friends and family without lag.
